

# Notes

The way to sample feces is as follows.

**QR code  
on top  
Please  
Stick it  
vertically**

- ① Pull out the cap slowly upward.
- ② With the tip of the rod attached to the sampling tube will take a very small amount of feces
- ③ Put the feces taken and close the cap tightly until it clicks.
- ④ Please stick the name label by the **left** method. (**stick it vertically**)

**Caution** Please keep the sampling feces in a cool place and submit it within one week. Women can be examined even during menstruation.
